2015 HOSTAS

- A Many-Splendored Thing**—Large sieboldiana type; very large dark green centered leaves, with very greenish yellow margin; corrugated leaves. Pale lavender flowers. *L* \$13
- Abby**—Dark green leaves with yellow-chartreuse margins that have a variable width and some streaking toward the mid rib. Sport of Gold Drop. Lavender flowers. *S* \$6
- Abiqua Drinking Gourd**—Dark, blue-green seer-suckered leaves with heavy substance display unique cupped form. White flowers. Slug resistant. *M* \$12
- Abiqua Miniature**—Slightly wavy, green leaves are dull on top, with whitish shiny on the underside. Slightly wavy. Purple flowers early July. *MN* \$10
- Abiqua Moonbeam**—Blue-green heart shaped leaves bordered by wide irregular yellow margins. Bell-shaped, pale lavender to whitish blooms. *M* \$10
- Abraham Lincoln**—Heavily corrugated blue-green foliage. Thick substance. Pale purple flowers. *M* \$20
- Afterglow**—(PPAF) Green, heart-shaped leaves with a remarkable yellow margin. Forms a large, upright mound. Pale lavender flowers early summer. *L* \$17
- Afternoon Delight**—Medium green center, wide gold margin; moderate corrugation. Grows into a large, dark green centered Hosta with a lovely contrasting gold margin. Pale lavender flowers. *L* \$16
- Alakazaam**—Green, long, narrow leaves with ruffled, bright yellow to creamy white margins. Lavender flowers late summer. *MN* \$14
- Albo-Marginata**—Large green leaves, edged with broad bands of white. *M* \$6
- Alex Summers**—Upright form; dark green leaves edged with bright gold margin. Named after the first president of the American Hosta Society. *L* \$14
- Allegan Fog**—Shiny, dark green leaves display a speckled green and white center, which is especially pronounced in the spring. Lavender flowers midsummer. *M* \$13
- Alligator Alley**—Coarsely textured, puckered, heart-shaped leaves have wide, blue-green margins with chartreuse to yellow centers. Near white flowers early summer. *M* \$19
- Alvatine Taylor**—A large Hosta with elongated blue heavy textured leaves edged with gold margin. White flowers. *G* \$10
- American Choo Choo**—Green leaves with a heavily rippled, wide, gold margin. Good Substance. Very pale lavender flowers late June to mid-July. *L* \$19
- American Eagle**—Green leaves with a wide gold margin that tends to streak into the center. Pale lavender flowers late July. *M-L* \$45
- American Gothic**—Blue-green in the leaves with a wide, gold to creamy white margin. Moderately corrugated. Thick-substance. Pale Lavender flowers in July. *L* \$23
- American Halo**—Large blue leaves with a wide creamy-white margin. White flowers early summer. Its former name was 'Northern Halo Wade Form' *L* \$14
- American Hero**—Honoring our troops, this sport of 'Revolution' has wide dark green margins with a creamy white center speckled with green. Leaves are slightly twisted as they mature. Thick substance. Lavender flowers midsummer. *M* \$17
- American Icon**—(PP17441) Green leaves with a wide, gold margin. Pale lavender flowers. Sport of 'Choo Choo Train' that forms a clump up to 6' wide. *L* \$15
- American Sweetheart**—A tetraploid sport of 'Sea Thunder' with wider, deep green margins and narrower, creamy white centers. Good substance. Lavender flowers. *M-L* \$13
- Andrew**—White leaves with a medium blue-green margin and a narrow green pattern between the blue and cream layers. Pale lavender flowers early summer. *L* \$18

Ani Machi (aka Geisha)—Wide green margin with a center that changes from medium gold in early spring to pale green by the end of summer. Leaves are elliptic to narrowly ovate in shape with distinct waves and leaf tips that are curved 90 degrees on most leaves. Medium purple flowers mid-August. *M* \$9

Ann Kulpa—Large heart-shaped leaves have a clean white center, with a chartreuse overlay where the center and green margin overlap. Fast growth rate. Pale lavender flowers midsummer. *L* \$13

Antioch—Long green tapering leaves start out with a yellow edge that later turns to white. Leaf edges are irregular and often have mottling and marbling as part of the overall patterning. The leaves cascade, adding to the dense mound. Pale Lavender flowers. *M-L* \$6

(rectifolia) Aomori Gold Star—Gold leaves with a dark green margin, forming a striking contrast. Upright growth habit. Medium purple flowers in August. *M* \$26

Apple Green—Chartreuses leaves are ovate-shaped, slightly wavy and smooth-textured. Grows into a very dense mound. Many pale lavender flowers in July. *M* \$6

Appletini—Smooth, wavy leaves emerge bright yellow changing to apple green by July 1. Good substance. Pale purple flowers in August. *D* \$14

Aristocrat—(PP11286) Cream margined sport of ‘Hadspen Blue.’ Heart shaped, smooth blue leaves with wide creamy-yellow margin lightening to a creamy white. Pale lavender flowers. *M* \$12

Atlantis—(PP17093) Long, dark green ruffled leaves with a striking golden-yellow margin. Light lavender flowers midsummer. Forms clumps up to 5-feet wide! *L-G* \$16

August Moon—Medium gold, moderately corrugated leaves. Good substance. Pale lavender flowers mid-July. One of the oldest and greatly admired gold hostas! *L* \$6

Aurora Borealis—Large, blue-green leaves with gold margin, vigorous form similar to ‘Frances Williams.’ White flowers. *L* \$11

Autumn Frost—Leaves emerge frosty blue with bright yellow margins changing to creamy white in summer. Light lavender flowers mid-late summer. *M* \$16

Avocado—Medium gold center with green margin. Fast growth rate. Much wider green margin than ‘Guacamole’ Fragrant, pale lavender flowers on three-foot scapes. *M-L* \$16

Aztec Treasure—Chartreuse heart-shape leaves; bell-shaped purple flowers. *M* \$10

Backyard Monster—Moderately corrugated green centered leaves with a margin that changes from yellow to white. Thick substance. Near white flowers in June. *L* \$18

Beckoning—(PP18371) Leaves emerge green, then turn gold with wide, blue-green margins by summer; slightly cupped and glaucous. Near white flowers. Sport of ‘Blue Angel.’ *L* \$15

Big Daddy—Blue-green leaves of heavy substance. Pale lavender flowers. *L* \$10

Big Top—Large, upright mound of blue-green foliage; ideal for shade gardens. Near-white flowers in July on three-foot scapes. *G* \$17

Bill Brincka—Bright green with bright yellow-green margin of variable width that becomes more ivory with the season. Virus-free version of H.‘Opipara’. Glossy leaves. Purple striped flowers. *M-L* \$11

Bix Blues—Deep blue-green, oval-shaped leaves; thick substance. Whitish flowers in July. *M* \$14

Blackjack—Heavily corrugated leaves emerge bluish green and become dark green by early summer. Thick substance. White flowers in July. *L* \$22

Blue Angel—Huge, blue leaves with heavy substance. White flowers. *G* \$9 (\$18 for large pots)

Blue Arrow—Glossy, lance-shape blue-green leaves. White flowers. *M* \$7

Blue Flame—Heart-shaped blue-green leaves with a wavy, yellow margin. Fragrant, pale lavender flowers in August. *M* \$14

Blue Haired Lady—Leaves begin a bluish green and by mid-summer turn shiny dark green. Good substance. Whitish flowers in July. *M* \$14

Blue Hawaii—Semi-upright mound of rich blue foliage; thick substance; slug resistant. Pale purple flowers in July. *G* \$13

Blue Ivory—Wide, creamy white margins and a blue center. Margins brighten to white and may develop a unique green blush in the summer. Lavender flowers. *S-M* \$16

Blue Jay—Intense blue heart-shaped leaves. Great substance. Lavender flowers. *S* \$14

Blue Mammoth—Powdered blue with heavily corrugated leaves; white bell-shaped flowers. *L* \$12

Blue Moon—Low-growing clump of blue-green heart-shaped leaves. White flowers. *S* \$9

Blue Mouse Ears—Thick, round, blue-green to gray-green leaves. Forms a perfectly symmetrical mound. Lavender, bell-shaped flowers. *MN* \$10

Blue River—Blue green, corrugated leaves with a yellow margin. Near-white flowers June and July. *M* \$16

Blue Sophistication—Eye-catching blue foliage color; excellent growth rate; makes great container plant or ground cover in the landscape. Lavender flowers in July. *M* \$8

Blue Umbrellas—Large blue-green leaves; good texture. White flowers. *G* \$9

Blue Vision—Deep blue-green corrugated leaves. Very slug resistant. White flowers. *L* \$10

Blue Wedgwood—Deep blue wedge-shape leaves. Its heavy substance is slug resistant. Lavender flowers. *M* \$8

Blueberry Muffin—Rich blue-green, oblong-ovate-shaped; slightly wavy and unruly; thick substance. *M-L* \$15

Bobbie Sue—Shiny dark green leaves; with a 1/2" wide pure white margin. 2 1/2" tubular lavender flowers, on 4' scapes *M* \$12

Bold Ribbons—Shiny, dark green leaves with a slightly wavy creamy white margin. Oblong-elliptic leaf blades with a rounded base. Bright purple flowers late July. *M* \$7

Brenda's Beauty—Sport of 'Gold Standard.' Leaves are green edged with a very light yellow center; average substance. Pale lavender flowers mid-July. *M* \$12

Bridal Veil—Green-centered leaves with neatly rippled, creamy margins. Very pale lavender flowers. *M* \$11

Bright Lights—Cup shaped leaves are center streaked and mottled with yellow and have wide, green margins. White flowers. *M* \$11

Brim Cup—Green cupped, seersucker leaves with wide irregular white margins; lavender flowers. *M* \$9

Broad Band—Heart-shaped leaves with extra wide, creamy yellow to white margins that jet into the dark green center. Near white flowers mid to late summer. *L* \$16

Brother Stefan—Large, heavily corrugated gold leaves with a wide dark green margin. Near white flowers in early summer. *L* \$17

Bumblebee—Rich gold, heavily corrugated leaves; good substance. White flowers in July. *L* \$18

Camelot—Very blue colored leaves; heavy substance. *M* \$9

Candy Dish—Shiny, green leaves are ovate-shaped with many tiny marginal ripples and a long, thin tip. Moderate underside bloom. Pale purple flowers on reddish scapes in September. *S* \$17

Candy Hearts—Leaves are medium blue-green, shiny on top and dull underneath, with a slightly rippled margin. They are broadly ovate with a cordate base, cupped, and lightly wavy. Fast growth rate. Light lavender flowers. *M* \$6

Captain Kirk—Leaves have a gold center that contrasts nicely with the dark green margins. Fast growth rate. Pale lavender flowers mid-summer. *M* \$12

Carnival—Irregular wide yellow margin that streaks to the center of the green heart-shape leaves. Lavender flowers. *M* \$10

Carolina Sunshine—Shiny, dark green center; wavy yellow margin; elliptic blade shape. Dense mound habit Pale purple flowers. *M* \$13

Cathedral Windows—(PP17295) Golden-yellow, heart-shaped leaves with wide, dark green margins; lighter shades of green appear between the overlap. Best coloration in bright filtered light. Vigorous growth rate. Large, fragrant, near-white flowers in late summer. *L* \$17

Celestial—dark green center with a 1 1/2" wide, creamy-white margin; heavily corrugated; thick substance. Improves on 'Northern Halo' and other white-edged, Sieboldana-types. Pale lavender flowers early July. *L-G* \$15

Center of Attention—Heart-shaped leaves with a creamy-white center. The leaves are margined by two shades of green, which often streak into the lighter leaf center. Pale lavender flowers in late July. *M* \$17

Centerfold—Bright gold, intensely corrugated, unruly leaves. Good substance. Very pale lavender flowers late June to July. *L* \$17

Chain Lightning—Excellent contrast between the dark green-margined leaves and creamy white center. Good substance. Lavender flowers in July. *S-M* \$16

Change of Tradition—Shiny green lance-shaped leaves with a very thin white margin. Medium lavender flowers mid-August. *M* \$7

Cherish—Round leaves with streaky yellow center. The center fades to near white by midsummer. Tiny purple bell-shaped flowers. *MN* \$15

Cherry Berry—Lance-shape leaves with dark green margin and creamy white centers. Violet flowers midsummer on red scapes. *S-M* \$11

Cherry Tart—Wedge-shaped leaves emerge bright chartreuse and brighten to a glowing yellow; prominent “lipstick red” leaf petioles. Lavender flowers midsummer. *S* \$15

Cherry Tomato—Creamy yellow to white long, narrow lance shaped leaves with wide, dark green margins. Red pigment concentrated on the lower petioles extending in a narrow strip to the center of the back of each leaf. Purple flowers on Red scapes mid-late summer. *D* \$15

Chesapeake Bay—Deep blue-green leaves that form a vase-shaped mound; lightly cupped; heavily corrugated; thick substance. Near white flowers in July. *L* \$13

Christmas Cookies—White center with dark green margin. Sport of ‘Night Before Christmas.’ Pale lavender flowers in mid-July to August. *M* \$16

Cinderella—Medium to dark green center with medium gold margin. Thick substance. Near-white flowers in late June. *L* \$16

Cinnamon Sticks—Glaucous green leaves with cinnamon red petioles. This hosta makes a great rock garden subject. September lavender flowers on dark red scapes. *M* \$13

City Lights—Large, brilliant gold leaves. Thick substance. Very pale lavender flowers midsummer. *L* \$13

Clear Fork River Valley—Dark green, heavily corrugated leaves. Thick substance. Very pale lavender flowers in late June. *L-G* \$17

Clifford’s Comet—Heart shaped leaves have a green edging that feathers deep into a cream-colored center. Unique green flecking appears throughout the center of each leaf. *M* \$18

Clifford’s Stingray—(PP17279)Leaves are twisted, folded, ovate, cordate base with a green margin and a white center. Fast growth rate. Lavender flowers in July. *M* \$14

Cloudburst—Unruly, thick, blue-green foliage turning a rich, shiny, dark green by midsummer. Pale purple flowers on 2’ scapes in July. *S-M* \$14

Cody—Ovate-shaped dark green leaves. Slightly shiny on the underside. Smooth texture. Purple flowers in July. *S* \$10

Color Glory—Cupped, round, golden leaves with an irregular blue-green margin. Good substance. Bell-shaped white flowers. *L* \$13

Cool as a Cucumber—(PPAF) Long, tapered leaves with clear white centers and bright green margins. Begins as an upright mound and matures into a beautiful arching mound. Light lavender flowers on creamy white scapes in early summer. *L* \$17

Corkscrew—Unique clump of upright and arching, twisted, shiny dark green leaves. Fast growth rate. Lavender flowers in September and October, frequently on forked scapes. *S* \$14

Corn Belt—Beautiful, pie-crust edged leaves are gold leaves with a wide green margin. Pale lavender flowers midsummer. *L* \$14

Cotton Candy—White leaves heavily covered with green mist, turning to bright green leaves by August 1. Lavender flowers. *S* \$22

Count Your Blessings—Heart shaped lime green leaves with white margins. Lavender flowers in July. *M* \$10

Cream Cheese—Green leaves with a yellow to white wavy margin. Purple flowers in August. *MN* \$12

Crusader—Narrow white margins on blue-green heart shaped crinkled leaves. Pale lavender flowers. *M* \$8

Curly Fries—Forms an arching, wiggly clump of extremely rippled narrow, chartreuse leaves. Red speckled petioles. Best foliage color in morning sun. Lavender flowers midsummer. *MN-S* \$18

Dance with Me—Heavy-textured, heart-shaped, yellow leaf is framed with a dark green margin. Pale lavender flowers. *M-L* \$13

Dancing in the Rain—(PP15977)Pure white centers with blue-green streaks and margins. Centers tend to green up in extreme heat. Pale lavender flowers. *L* \$16

Dancing Queen—Bright yellow wedge-shaped leaves with a great rippled edge. Vigorous clumping. Lavender flowers midsummer. *L* \$14

Dark Secret—Corrugated, unruly, cupped, dark green, shiny leaves. Good Substance. Pale lavender flowers late June to July on 3’ scapes. *G* \$18

Dark Shadows—Heart-shaped and gently ruffled leaves emerge blue with an uneven chartreuse-yellow margin, and changes to green early summer; thick substance. Pale lavender flowers early summer. *L* \$15

Day's End—Medium green-centered foliage bordered in gold; August lavender flowers. *L* \$12

Deep Blue Sea—Outstanding blue, round corrugated leaves. Near white flowers midsummer. *M* \$14

Deep Pockets—Heavily corrugated, deeply cupped, medium to dark green leaves. Good substance. Very pale lavender flowers. *M* \$14

Deep Space Nine—Medium to dark green leaves with a wide, wavy yellow margin. Thick Substance. Reverse sport of 'Captain Kirk.' Pale lavender flowers mid-July to August. *L* \$15

Déjà Blu—Blue-green foliage with a cream lightning bolt between the center of the leaf and the yellow margin. Light lavender flowers. *M* \$13

Designer Genes—Bright gold leaves with crimson red scapes. Purple flowers in July. *S* \$17

Devil's Advocate—Blue-green leaves with green margins that brighten into a showier apple green as the season progresses. Plant forms an upright mound. Sport of 'Blue Angel.' White flowers midsummer. *G* \$18

Dew Drop—Small heavily-textured dark green leaves with a narrow white margin. Lavender flowers late June. *S* \$7

Diana Remembered—Moderately corrugated, blue-green leaves with creamy white margins that extend down to the petioles. Named after the late Princess Diana of Whales. Very fragrant, white, tubular flowers. *M* \$14

Dick Ward—Nearly round, gold leaves with wide, jetting, dark green margins; mature leaves are heavily corrugated; slug resistant. Pale lavender flowers early summer. *M* \$15

***Dinner Mint**—Bright yellow leaves with dark green, slightly rippled margin. Wavy. Medium to fast growth rate. Medium purple flowers in August. *S* \$14

Dream Maker—Blue-green leaves with heavily streaked yellow variegation. Thick substance. Near-white flowers late June to mid-July. *L* \$50

Dream Queen—A sport of 'Great Expectations' which is similar to 'Thunderbolt'. Large, nearly round, corrugated, bluish-green leaves with a narrow, creamy white center. White flowers. *M* \$12

Dream Weaver—Creamy white pattern in the center with a very wide blue-green border, the leaves are slightly corrugated. *M* \$15

Duke of Cornwall—Blue-green leaves with a gold margin. Near white flowers late June to July. *L* \$23

Dust Devil—An attractive "reversed" sport of 'Whirlwind'. A dark green center makes a striking contrast to wide, white margins; good growth rate, late July lavender flowers. *M* \$13

Earth Angel—Large heart-shaped blue-green leaves have a wide creamy-white margin. *L* \$12

Easy to Love—Blue green leaves with a white margin. Good substance.. Medium to fast growth rate. Pale lavender flowers in July. *M* \$19

Ebb Tide—Green leaves with a wavy, crinkled gold margin. Grows in a vase-shaped mound. Near white flowers with lavender stripes in July. *L* \$13

Elbridge Gerry—Green Leaves with wide gold margins. Pale purple flowers in July. *M* \$19

Eleanor Lachman—White center with green margin that often streaks into the center. Lavender flowers. *S* \$25

Electrocution—Tightly rippled, twisted, long and narrow leaves are green with yellow to creamy yellow margins. Red speckled petioles. Upright growing habit. Lavender flowers midsummer. *M* \$17

Ellerbroek—Deep green leaves with a golden border are cupped, crimped and puckered. Color holds well in sun and shade. Pale lavender flowers late July. *M-L* \$6

Embroidery—Leaves emerge in the spring with a creamy-white center and a margin of gathered puckering or "stitched." The center variegation fades to green in summer. *M* \$39

Emerald Charger—Gold center with wide bright green margins. Sport of 'Stained Glass,' only with much wider margins and heavier substance. Fragrant, pale lavender flowers in August. *L* \$18

Emerald Ruff Cut—Gold center with a rippled, dark green margin. Sharply contrasting gold-green variegation. Pale lavender flowers. *M* \$14

Emerald Scepter—Leaves emerge gold, turning creamy white (especially in bright light), with a chartreuse margin. Ovate leaf shape. Pale purple flowers mid-July. *S* \$12

Emerald Tiara—Medium green margins on gold center leaves; reverse of 'Golden Tiara.' Purple flowers. *M* \$6

Empress Wu—(PP20774) Huge, dark green, deeply veined leaves; thick substance. Forms an upright clump. Pale Reddish violet flowers. Largest known hosta in commerce! *G* \$17

Enterprise—Sport of 'Captain Kirk'. Creamy white center with a green margin; better than average substance. Lavender flowers. *M* \$14

Eskimo Pie—(PP16290) Puckered leaves emerge with pale yellow centers, chartreuse streaking, and blue-green margins. The centers fade to cream and the streaking turns apple-green. White flowers. *L* \$17

Eternal Flame—Selection of 'Whirlwind,' but the center variegation holds its white variegation better. Pale lavender flowers. *S-M* \$13

Everlasting Love—Wide, creamy yellow to white margins with a dark green center. Good growth rate. Lavender flowers. *M* \$10

Eye Declare—(PP18466) Glowing yellow leaves emerge with a deep green margin. The center greens up in the summer. Lavender flowers. *M* \$16

Fair Maiden—Streaky cream edged; foliage emerges in the spring with dark green leaf centers and yellowish-white margins, eventually turning white. Lavender flowers. *M* \$9

Faith—Brassy-gold, rounded leaves with excellent corrugation. Morning sun to lightly filtered shade for brightest leaf coloration. Near-white flowers early summer. *L* \$16

Faithful Heart—Oval-shaped leaves, light gold center with a narrow green margin. Pale purple flowers. *MN* \$11

Fallen Angel—A large mound of pointed leaves that emerge misted, near white in the spring, then turn blue-green and finally green as the summer progresses. Near white flowers in early summer. *L* \$18

Fan Dance—Yellow leaves with a green margin; the intensity of coloration is extremely light dependent and may bleach to parchment color in high light. Pale lavender flowers. *M* \$10

Fantabulous—Sparkling, deep green leaves with a broad creamy-white margin. The slightly rippled leaf margin gives the impression the foliage is flowing from the center of the plant. *M* \$12

Fantasy Island—Leaves have a yellow center early that changes to creamy white with medium green, slightly wavy margins. Sport of 'Island Charm.' Pale purple flowers. *S* \$12

Fat Cat—Large, almost round, deep yellow leaves with great quilting at maturity. Near white flowers in June. *L* \$14

Fiesta—Chartreuse centered leaves with a narrow, white margin. Slug resistant. Pale purple flowers. *M-L* \$15

Final Summation—(PPAF) Sport of 'Sum and Substance' with wide, dark green margins; lightly cupped, very round, giant leaves. Lavender flowers in July. *L-G* \$18

Fire and Ice—This sport of Patriot, has very dark green margins and a pure white center. Lavender flowers on a white stem. *S-M* \$13

Fire Island—Brilliant yellow leaves with light red petioles and the coloration extending into the base of the leaves. Stunning intensity in spring. Lavender flowers. *M* \$12

Fired Up—Blue-green leaves with a narrow white margin and many whit streaks throughout the center. Good substance. Pale purple flowers late July to early August. *M* \$49

Fireworks—(PP16062) Miniaturized sport of 'Loyalist'. Narrow, stiff, upright foliage. Deep green margins and creamy white centers. Light lavender flowers. *S* \$15

First Frost—Blue center gradually turns dark green with a wide, gold margin that turns into creamy-white. Pale Lavender flowers. *M* \$14

First Mate—Dark green margins with yellow to creamy white center, narrowly elliptic leaves. Purple flowers mid to late summer. *S* \$13

Flame Stitch—Heart-shaped leaves with a small, twisted tip and dark green margins that streak into the white center. Deep violet flowers. *M* \$21

Flapjack—Medium green, ovate-shaped leaves with a rippled white margin. Corrugated at maturity. Near white flowers. *M* \$18

Flower Power—Dark gray-green leaves that are rounded with prominent veins. Upright growth habit. Fragrant flowers July and August. *L* \$10

Fountain of Youth—Shiny, heavily rippled leaves with a white margin and medium green center. Pale lavender flowers. *S-M* \$12

Foxfire Green Lantern—Ovate-shaped leaves are pale green, changing to chartreuse by mid-July. Heavily corrugated; slightly cupped. *M* \$24

Fragrant Bouquet—Apple green leaves with wide irregular yellow-white margins. Fragrant white flowers midsummer. Sun tolerant. *M-L* \$12

Francee—Forest-green heart-shaped leaves with narrow white margins. Lavender flowers. *M* \$6

Frances Williams—Wide gold margins on blue-green center leaves. Thick substance. White flowers. *M* \$8

Fringe Benefit—Large bluish-green puckered heart-shaped leaves with broad white margin. *M-L* \$6

Frosted Mini Hearts—Shiny, slightly wavy leaves have a misted white and green center with a narrow green margin. Pale purple flowers in July. *MN* \$18

Frosted Mouse Ears-- blue-green to dark green in the center with a wide, creamy white margin; thick substance. Purple flowers in July. *MN* \$15

Garden Party—Medium to bright gold center with a medium green margin ½” to ¾” wide. Thick substance. White flowers early in July. *G* \$16

Garden Treasure—Oval shape leaves with a dark green center and wide gold margins. Brightly variegated. Slug-resistant. Dense clustered, very pale lavender flowers. *L* \$12

Gemini Moon—Green center with gold margin. Sport of ‘Abiqua Moonbeam’. Pale lavender flowers. *M* \$15

Gentle Giant—Large blue-green leaves; corrugated, cupped and twisted. Lavender flowers June to July. *G* \$20

George M. Dallas—Dark green leaves with a sharply contrasting gold margin; distinct tip; good substance. Lavender flowers mid-July to August. *L* \$19

Georgia Sweetheart—Pointed, glossy leaves have dark green margins with a narrow gold center that fades to creamy-yellow by late summer. Pale lavender flowers on a cream scape midsummer. *M* \$18

Ghost Spirit—Blue-green margins, misted green and white center that changes to green in July; heart shaped blade. Pale lavender flowers in early July. *M* \$16

Giantland Sunny Mouse Ears—Small, medium gold, heart-shaped leaves. Thick substance. Pale purple flowers early to mid-July. *MN* \$18

Gin and Tonic—Chartreuse center, creamy gold to white margin; heavily corrugated; good substance; semi-upright mound habit. Near white flowers from July into August. *M* \$12

Ginko Craig—Deep green in the center, nearly as much irregular white edgings as there is green; petioles are edged white, are open grooved; some irregular cupping exists. Tolerates morning sun very well. Medium purple flowers. *S* \$6

Glad Tidings— Leaves emerge chartreuse and gradually become gold colored as the season progresses. The foliage is somewhat unruly and forms an upright clump. Thick substance. Pale lavender flowers bloom in July. *M* \$20

Glory Hallelujah—Heart-shaped leaves are dark blue-green with a yellow margin; reverse sport of ‘Paul’s Glory’. Pale lavender flowers midsummer. Great grower with pronounced variegation. *M* \$13

Gold Drop—Small, gold heart-shaped leaves, excellent for edging. Lavender flowers. *S* \$6

Gold Standard --Leaves emerge light green with dark green margin turning gold with a light green margin by summer. *L* \$6

Golden Gate—Rich gold with wavy corrugated shiny leaves with good substance. Lavender flowers. *L* \$17

Golden Needles—Compact clump of yellow leaves with green streaks throughout the whole leaf. Thick substance. Improved sport of ‘Silver Threads and Golden Needles.’ Lavender flowers midsummer. *MN* \$18

Golden Scepter—Gold leaves are ovate-shaped and slightly wavy. Slightly shiny underside. Pale purple flowers in July. *M* \$6

Golden Tiara—Medium green, heart-shaped leaves; gold margin. Lavender flowers. *S* \$6

Golden Tusk—Medium to bright gold color; thick substance. A gold-leaved sport of ‘Woolly Mammoth.’ Near white flowers. *L* \$14

Golden Years—Medium gold color; thick substance: July lavender flowers. *M* \$8

Goodness Gracious—(PPAF) Large, deeply veined, heart-shaped green leaves with very wide yellow margins. Showy sport of ‘Satisfaction.’ Light lavender flowers early to midsummer. *L* \$18

Grand Master—Large bluish-green puckered leaves with white margin. thick substance. Lavender flowers. *L* \$8

Grand Tiara—Bright gold margin with narrow dark green center. Lavender flowers. *M* \$8

Great Arrival—Blue-green center; ½” to ¾” margin that is bright gold in spring, turning creamy white by mid-summer; heavily corrugated; broadly ovate blade; thick substance. Near-white flowers. A reversed form of ‘Great Expectations’. *L* \$13

Great Expectations—Large round puckered leaves with 2½” wide blue-green margins, gold center changing to creamy white by mid-summer. Outstanding variegation. White flowers. *L* \$13

Great Lakes Gold—Bright gold leaves with rippled margins. Pale lavender flowers. *L* \$14

Green Gables—Medium green leaves. Sport of ‘Sum and Substance.’ Lavender flowers late summer. *L* \$13

Grey Ghost—In early spring, leaves comes up near white to yellow, then blue-green by early summer, thick substance. A

sport of 'Blue Angel.' Ideal specimen plant because of its leaf color metamorphosis. Near white flowers June to July. *L* \$17

Grover Cleveland—Heavily corrugated, cupped, deep blue-green, broadly ovate leaf. Thick substance. Very pale lavender flowers midsummer. *L-G* \$18

Guacamole—Gold-centered, green-margined color; colors intensify with more light and during the growing season. Fast growth rate. Fragrant, pale lavender flowers. *M-L* \$11

Guardian Angel—Wide; misted white and green leaf centered surrounded by a blue-green margin; thick substance: a striking sport of 'Blue Angel'. Dense clustered near-white flowers on a 3-4' scape in June. *L* \$15

Gypsy Rose—Elliptic-ovate yellow leaves with a contrasting, wide, dark green margin, plus a whitish margin between the center and margin. Lavender flowers late July. *M* \$15

Hacksaw—Long, tapered, light green leaves are intensely rippled and lightly serrated. Vigorous growth rate. Good sun tolerance. Lavender flowers mid to late summer. *S* \$12

Haku Chu Han (Shiro Kabitan)—Narrowly elliptic shaped, white centered leaves with moderately rippled green margins. Purple flowers in August. *S* \$9

Hakumuo—Green leaves with a white margin that is sometimes speckled green and white. Pale purple flowers from late June to mid-July. *M* \$14

Halcyon—Deep blue-green color. Thick substance. Good slug resistance. Very pale lavender flowers. *M* \$8

Hanky Panky—(PP16217) Dark green foliage with a pale lime margin and a white thread between the center margin. During summer, the edge turns white with a pale green overlay. Lavender flowers midsummer. *S-M* \$17

Happy Camper—Green center with ½" to 1" white margin that occasionally streaks into the center. Pale lavender flowers. *M* \$11

Harpoon—Glossy, dark green leaves with a gold margin. Pest resistant. Purple, spider-like flowers. *M* \$13

Harriette Ward—Brilliant gold foliage of excellent substance. Pale lavender flowers mid-July. *L-G* \$17

Heart and Soul—Gold leaves with a medium green margin. Lavender flowers in July. *S-M* \$12

Heat Wave—Blue leaves with a yellow center that develop heavy corrugation as they mature. Thick substance. Near white flowers early summer. *M-L* \$15

Heavenly Tiara—Green leaves with wide, light yellow, jetting margins in spring. During summer, the center is chartreuse with ivory margins. Purple flowers midsummer. *S-M* \$15

(*Montana*) **'Hida No Hana'**—Leaves are misted green and white in the center with a green margin. Very pale lavender flowers in July. *M* \$26

Hidden Cove—small arrow-shaped leaves feature a yellow-butterscotch to creamy-white coloration, edged by a dark green margin. Lavender flowers in later summer. *MN* \$13

Hideout—Lance-shaped, wavy leaves with a narrow green margin and white center. Pale purple flowers mid to late July. *D* \$15

High Society—(PP17313) Emerges in spring with a narrow, yellow center and wide, blue margins. Center widens and brightens to white by midsummer. Pale lavender flowers. *S* \$15

Hippodrome—Leaves have blue-green to dark green center with a neatly rippled, creamy yellow margin. Thick substance. Near-white flowers. *M* \$17

Holly's Honey—Glossy dark green leaves with ruffled margins. Dark purple flowers midsummer. *M-L* \$9

Hollywood Lights—(PP17296) Large, arching dark green leaves are accented by a yellow flare in the center of the leaf. Pale lavender flowers midsummer. *L* \$16

Holy Molé—Thick, rubbery, chartreuse leaves with 2" wide, dark green margins. Sport of 'Guacamole.' Best in part sun. Very fragrant, near-white flowers. *L* \$14

Holy Mouse Ears—Small, mouse-ear shaped leaves with a bluish green margin, yellow to creamy white center; thick substance. Purple flowers in July. *MN* \$16

Honeybells—Large, light green leaves; fragrant violet-white flowers. *L* \$6

Hoosier Harmony—Chartreuse center edged by a green margin. Rapid growth rate. Sport of 'Royal Standard'. Wonderful fragrant white flowers. *L* \$10

Hudson Bay—(PP23598) Wide, bright blue margins with apple green jetting and white centers. Heavy substance. Near white flowers early summer. *L* \$18

Humpback Whale—Heart-shaped, corrugated blue green leaves that are the bluest in the spring. Grows into a massive,

dome-shaped mound. Near white flowers early spring. *G* \$18

Hyuga Urajiro—Frosty blue, spear-like leaves with yellow streaks and metallic silver coloration on leaf undersides. Near white flowers early summer. *S* \$16

Ice Age Trail—Heavily streaked, broadly ovate foliage, a combination of blue-green and gold. Color changes to dark green and creamy white by mid-summer. Thick substance. Near-white flowers. *M* \$25

Ice Cream—Sport of ‘Vanilla Cream’ boasts the same wonderful habit and style, but with an exciting deep green center and gold margin. Pale lavender flowers. *S* \$9

Ice Follies—Long, dark green, pointed leaves with wide creamy white margins. Good growth rate. Pale lavender flowers midsummer. *M* \$16

Ice Prancer—Wedge-shaped, blue rippled margins with an exaggerated leaf tip. Good substance Slug resistant. Light lavender flowers midsummer. *M-L* \$14

Imperial Palace—Yellow leaves turning to creamy white as the season progresses, with 2” wide, medium green margins. Very pale lavender flowers late June to mid-July. *L* \$18

Independence—(PP17044) A reverse sport of ‘Revolution’. Dark green leaves have creamy-white margins that are speckled with green. Large, pale lavender flowers. *L* \$13

Inniswood—Bright gold, heart-shaped leaves bordered with a wide deep green margin, heavy texture and corrugation. Lavender flowers in June. *L* \$12

Iron Gate Delight—Wide, creamy-white margin on green leaves. Fragrant lavender flowers. *M-L* \$10

Island Charm—Yellow centered leaves (changing to white in high light) are edged in green. Reddish leaf petioles and flower scapes with lavender flowers, hence exhibiting the colors of a tropical sunset. *S* \$10

Itty Bitty—Dark green margins with a white center that develops green speckles through the growing season. Very thick substance. Pale purple flowers early to mid-July. *MN* \$18

Itty Gold—Corrugated, cupped, medium gold leaves which are brightest in the spring. Compact growing habit. Lavender flowers in July. *S* \$14

Ivory Coast—Bluish to dark green leaves with 1-2” wide creamy white margins. Smooth texture. Very thick substance. Slug resistant. Impressive sport of ‘Sagae.’ Lavender flowers in July. *L* \$14

Ivory Necklace—Medium green leaves with a creamy white margin. Vigorous growth rate. Medium purple flowers late July into August. *M* \$12

Ivory Queen—(PPAF) Cream to near-white leaves with broad, long lasting, blue-green margins with a dash of green. Pale lavender flowers midsummer. *M* \$18

Jabulani—Roundish, corrugated, gold leaves with a green margin. Thick substance. Near White flowers late June to July. *M* \$18

Jack of Diamonds—Blue-green leaves with an irregular, yellow margin; corrugated. Best color in high filtered shade. Plant forms a dense mound. White flowers early to mid-summer. *M* \$13

Jewel of the Nile—Heart-shaped blue leaves an irregular gold margin. Thick substance. Pale lavender flowers in early summer. *M* \$15

Jimmy Crack Corn—Large, gold leaves with deeply impressed veins and a picrust edge. Near white flowers. *L* \$12

Journey’s End—(PP16895) Large, heart-shaped leaves with a gently ruffled edge. The yellow-gold leaves display several shades of green where the wide dark green margin bleeds into the gold center. Pale lavender flowers in midsummer. *L* \$16

June—Gold leaves bordered by a blue and green margin. The light center will bleach white in bright light, and heavy substance. Pale lavender flowers. *M* \$10

June Fever—(PP15340) A nearly all-yellow sport of ‘June’ with a very narrow, blue-green margin that jets towards the midrib. Darkens to chartreuse in midsummer. Pale lavender flowers. *M* \$13

Just So—Gold-centered, green margined foliage. Pale lavender flowers. *S* \$9

Justine—(PP21,624) Leaves have bright gold centers with dark green margins. Very thick substance. Pale lavender flowers from late July to early August. *M* \$17

Kabuki—Medium green center with creamy white margin. Lavender flowers. *S-M* \$10

Katie Q—Green center with a medium gold margin and slightly wavy leaves. Pale lavender flowers on an 18-30” scape. *M* \$12

Key West—Large, bright gold, heart-shaped leaves. Has a potential for a 6’ diameter for mature clumps! Does best in

bright filtered shade to best take advantage of intense gold coloration. Lavender flowers early summer. *L* \$16
(venusta) Kinakafu Otome—Oval-shaped leaves emerge with green margin and gold-centers in spring and change to all green by mid-July. Purple flowers late June. *MN* \$15
(rectifolia) Kinbuchi Tachi—Shiny, dark green center with a margin that changes from yellow to creamy white. Good substance. Bright purple flowers. *L* \$17
King Tut—Ovate-shaped bright gold leaves. Heavily corrugated. Thick substance. Near white flowers June and July. *M-L* \$12
Kiwi Full Monty—Sport of ‘Striptease.’ Frosty blue leaves have golden centers, turning to a bright creamy-yellow, bordered with flashes of white. Lavender flowers. *M* \$16
Knockout—Wide cream edge with blue-green centers; spectacular coloration on leaves. *M* \$9
Komodo Dragon—Heart-shaped gray-green leaves. Pale lavender flowers early summer. *L-G* \$15
Korean Snow—Early color misted green and white, changing to a shiny medium green; smooth texture; good substance. Spidery purple flowers mid-August. *S-M* \$17
Krossa Regal—Frosty blue leaves; soft lavender flowers on tall scapes. *L* \$6
Krugerrand—Large, upright mound of bright gold foliage. Pale lavender flowers. *L-G* \$17
Lady Godiva—Green center with white margin. Reverse sport of ‘Striptease’. Pale lavender flowers. *M* \$12
Lady Isobel Barnett—Very large green leaves with a narrow gold margin. This plant has the potential of passing ‘Sum and Substance’ in size. *G* \$18
***Ladybug**—Moderately corrugated, chartreuse to gold leaves. Forms a very dense, rounded mound. Lavender flowers in July. *S* \$16
Lakeside Baby Face—Oval shaped, medium to dark green center with creamy yellow to white margin that is slightly wavy; forms a low, dense mound. Pale purple flowers in July. *MN* \$12
Lakeside Butter Ball—Heavily corrugated, medium gold leaves. Thick-substance. White flowers. *M* \$18
Lakeside Color Blue—Deep blue green leaves; cupped; good substance. White flowers in July. *L* \$19
Lakeside Cupcake—Cupped leaves with a wide, dark green margin surrounding a creamy center. Good substance. Excellent growth rate. Whitish flowers in July. *MN* \$14
Lakeside Cupid’s Cup—Bluish green to dark green leaves with a creamy yellow to white margin; cupped and slightly corrugated. Pale lavender flowers in July. *M* \$17
Lakeside Dimpled Darling—Corrugated, ovate green leaves with a wavy yellow to creamy white margin. Near white flowers in June to July. *S* \$15
Lakeside Down Sized—Pale green in the center with a rippled, creamy white margin. Purple flowers. *MN* \$11
Lakeside Fruit Loops—Creamy yellow to white-centered with a dark green margin. Lavender flowers in July. Great miniature. *MN-S* \$17
Lakeside Kaleidoscope—Wide, creamy white margin often streaks into the medium green center, slightly rippled margins, near-white flowers. *M* \$11
Lakeside Keepsake—Dark green leaves with strongly contrasting, wide, creamy white margins; thick substance; moderate corrugation. Pale lavender flowers in July. *M* \$17
Lakeside Little Gem—Neat clump of tiny, ovate, undulating green leaves. Lavender flowers. *S* \$9
Lakeside Little Tuft—Leaves are white-centered with a wide, shiny, dark green margin; slightly wavy. Pale purple flowers in July. *MN-S* \$19
Lakeside Love Affaire—Tricolor leaves are white with a wide, dark green margin and lime green towards the midrib. Forms an upright, flaring mound. Near-white flowers. Prefers light to moderate shade. *M* \$21
Lakeside Masterpiece—Broadly ovate-shaped blue-green leaves with a creamy yellow margin early, changing to white. Moderate corrugation. Thick substance. Near white flowers in July. *M-L* \$17
Lakeside Pebbles—Shiny, dark green, heavily corrugated leaves. Thick substance. Near white flowers midsummer. *M* \$17
Lakeside Prophecy—Ovate shaped dark green leaves with a frilled and rippled edge. Moderately corrugated. Thick substance. Pale lavender flowers in July. *M* \$19
Lakeside Ripples—Heavily rippled, dark green foliage. Pale lavender flowers. *L* \$14
Lakeside Scamp—Creamy-white margined aqua blue-green leaves. Good substance. Grows to form a dense mound. Pale lavender flowers. *MN* \$14

Lakeside Sparkle Plenty—Yellow, narrow ovate leaves with a faint green margin that is moderately wavy. Semi-upright habit. Deep purple flowers late July. *M* \$14

Lakeside Spellbinder—Narrow, creamy-white center, with a 2 ½” wide, dark green margin; good substance. White flowers in July. *M* \$13

Lakeside Storm Watch—Narrow, wavy, shiny, dark green, upright foliage. Pale purple flowers in July and August. *M* \$16

Lakeside Tee Ki—Gold leaves with a wavy light yellow margin; semi upright growth habit. Pale lavender flowers in July. *S* \$15

Lakeside Whizzit—Green margin with a green-dotted, white center. Purple flowers in July. *MN* \$19

Last Dance—A sport from the gold form of ‘Summer Music’. An uneven streaky yellow margin with a dark green center. Good substance. Pale lavender flowers in mid-summer. *M* \$12

Laverne & Shirley—Heavily corrugated leaves are harvest gold color. Thick substance. Slug resistant. Near-white flowers June to July. *M* \$19

Lemon Lime—Lance-shaped chartreuse leaves; purple striped flowers. *S* \$6

Lemontini—Slightly shiny leaves that emerge chartreuse and change to bright yellow. Smooth texture. Medium purple flowers in August. *D-S*. \$14

Let Me Entertain You—Sport of ‘Gypsy Rose; all green leaves; lavender flowers. *M* \$11

Lewis and Clark—Gold centered leaves with a wavy green margin. Pale purple flowers on 3’ scapes late July. Medium to fast growth rate. *M* \$14

Li'l Abner—Medium green center with a brassy gold margin. Pale lavender flowers. *M* \$12

Liberty—Wide, dramatic yellow margins that fade into creamy-white later in the season. Sport of ‘Sagae.’ Pale lavender flowers. *G* \$16

Lime Smoothie—Undulating leaves have green centers with broad, lime green margins that turn cream in late summer. Lavender flowers in June and July. *L* \$15

Limetini—Slightly rippled leaves emerge bright gold, quickly changing to lime green by early June. Pale purple flowers in August. *D-S*. \$14

Limey Lisa—Small, dense mound of heart-shaped, green leaves. They emerge chartreuse, and turn medium green as the season progresses. Purple flowers in July. *S* \$9

Linda Sue—Blue green-centered with a wide, gold margin; heavily corrugated; very thick substance. Sport of ‘Frances Williams’ that is not supposed to burn and has wider margins. White flowers. *L* \$18

Little Devil—Elongated green leaves with a crisp white margin. Lavender flowers late summer. *MN* \$14

Little Sunspot—Yellow leaves with green margins. Great for edging. White flowers. *MN-S* \$11

Little Treasure—(PP21210) Creamy white flowers with wide, blue-green margins; good substance. Lavender flowers early to mid summer. *MN* \$14

Little Wonder—Smooth, narrowly ovate medium green leaves with a moderately wavy creamy white margin. Deep purple flowers mid-July. *S* \$8

Lizzard Lick—long, narrow green leaves with wavy margins; good substance; fast growth rate. Grows better by smaller hostas. Lavender flowers July and August. *S-M* \$16

Lollapalooza—dark green center with a 1 ¼” wide, bright yellow to creamy white margin; good substance. Whitish flowers in July. *L* \$17

London Fog—White with green speckling. Unlike its sport ‘Allegan Fog,’ it is completely misted. Pale lavender flowers in July. *S* \$17

Lonesome Dove—(PP17294) cupped blue-green leaves with a creamy-white interior; good substance. Pale lavender flowers. *M* \$15

Lothar the Giant—deep dark green leaves; thick substance. Near white flowers in July. Slug resistant. *L* \$18

Love Pat—Very blue leaves with quilted texture. White flowers. *M* \$10

Lullabye—Pale yellow color turning chartreuse by summer, slightly rippled margins. Pale purple flowers. *M* \$14

Lunar Orbit—Gold leaves edged by dramatic wide dark green margins. Violet flowers. *M* \$10

Majestic—Dark green leaves with wide creamy-white margins forms a striking contrast. Lavender flowers midsummer. *M-L* \$14

Mango Tango—Round leaves with a very wide green edge; narrow mango-yellow, slightly puckered design in center of

leaf. Lavender flowers midsummer. *M* \$19

Manzo—Heavily twisted leaves with a green margin and white center. Good vigor. This unique contorted foliage is ideal for troughs or small containers. *MN* \$14

Maraschino Cherry—Green lance-shaped leaves with red leaf petioles and flower stems. Fast growth rate. Purple flowers midsummer. *M* \$8

Margie's Angel—Gold leaves with a dark green margin. Good substance. Medium to fast growth rate. Very pale lavender flowers late June to July. *M* \$20

Marilyn—Ovate-shaped leaves emerge chartreuse in spring, changing to medium gold midsummer. Slightly wavy. Lavender flowers June to July. *M* \$8

Medusa—Shiny, ivory-white to yellow leaves; 1/4" emerald-green edge; twisted and rippled; lance shaped. Pale purple flowers. *MN* \$11

Midas Touch—Puckered, cupped golden-bronze leaves; May need some sun to retain its deep color. Can grow in full sun in cool climates. White flowers. *L* \$11

Midwest Magic—Gold-centered, green-edged; good substance. An excellent contrast between gold center and dark green margin. Pale lavender flowers. *L* \$10

Mildred Seaver—Leaves are thick creamy-white margins and medium green centers. Pale mauve flowers. *M* \$8

Millenium—Leaves are intensely blue-green with a slightly rippled margin. They are broadly ovate with a cordate base; there is glaucous bloom on both the top and underside of the leaf. Thick substance. Intensely corrugated. Pure white flowers. *G* \$16

Millie's Memoirs—Dark green leaves are edged with a gold margin. The leaves have a heavy substance, corrugated, puckered, and slightly cupped. Near white flowers. *M* \$12

Minuteman—Dark green, cupped leaves with wide, pure white margins. Pale lavender flowers. *M* \$10

Miss Susie—Elongated, wedge-shaped yellow leaves with bright red petioles. Best planted in an elevated site to admire the red petioles. Lavender flowers late summer. *S-M* \$16

Mister Watson—Bright gold-centered with a narrow, green margin; heavily corrugated; thick substance. Near-white flowers. *M* \$13

Monsoon—Corrugated, gold leaves with a medium green, wavy margin. Good substance. Pale lavender flowers late June to July. *L* \$19

Montana 'Aureomarginata'—Large green leaves with stunning, irregular yellow-cream margins. Pale lavender flowers. *L* \$12

Montana f. macrophylla (aka Krossa B-3)—Medium to dark green leaves that are ovate-shaped with a deeply lobed base, and long, thin tip. Slightly wavy. Thick substance. Grows into a vase-shaped mound. Very pale lavender flowers late June to July. *G* \$

Montana 'Mountain Snow'—Medium green with a wide wavy margin. Near white flowers. *L* \$11

Montreal Blue Ice Storm—Broadly ovate, moderately corrugated, deep blue-green leaves. Thick substance. Pale lavender flowers late June to July. *G* \$18

Moonlight Sonata—Bluish-green leaves are broadly ovate with a distinct tip. Wavy, moderately rippled, slightly cupped. Thick substance. Fragrant pale bluish white flowers mid-July to August. *M-L* \$11

Moonstruck—Long, narrow white leaves are framed by a narrow blue edge. Great growth rate for the amount of white in its leaves. *S* \$13

Morning Light—(PPAF) A reverse of 'Twilight' with golden-yellow center and dark margins. Heavy substance. Pale lavender flowers. *M* \$11

Mouse Trap—Bright white leaves with a blue-green margin. Younger leaves have green speckling in the white center. Thick substance. *MN* \$18

My Child Insook—Shiny, ivory white leaves with a dark green edge and chartreuse jetting towards the midrib. Pale lavender flowers mid to late summer. *L* \$18

My Claire—Medium green center; yellow to creamy white margin. Lavender flowers. *S-M* \$14

My Friend Nancy—Ovate-shaped, wavy, moderately corrugated, bluish green leaves with a yellow to creamy white margin. Thick substance. Very pale lavender flowers July to August. *M* \$13

Nate the Great—Large, round blue-green leaves are deeply cupped and puckered; upright hosta. Lavender flowers on a tall, straight scape in July. *L* \$17

Neptune (PP19674)—Heavily rippled, narrow wedge leaves emerge glaucous blue, and turn more blue-green as the season emerges. Good substance. Lavender flowers on arching scapes late summer. *L* \$15

Niagara Falls—Dark, spinach-green, heart-shaped leaves with wide, deep impressed veins. Very nice pie-crust edging, intensifying with age. Pale violet flowers. *L* \$14

Night Before Christmas—2 ¾" white center bordered by wide, dark green margins. Pale lavender flowers. *M* \$10

Night Shift—Bright gold leaves with a dark green, wavy margin. Good substance. Lavender flowers on 3' scapes that droop horizontally. *L* \$19

Nigrescens—Broadly ovate shaped, moderately corrugated blue-green leaves. Thick substance. Grows into a vase shaped mound. Pale lavender flowers on 6' scapes July to August. *L* \$9

None Lovelier—Medium green center with creamy yellow margin; heavily rippled; good substance. Lavender flowers. *L* \$12

Northern Exposure—Huge, corrugated leaves are blue-green with 2" margins that lighten to cream. Forms a large, impressive clump. White flowers. *L-G* \$14

Ocean Isle—Long, thin pointed, wavy blue-green leaves with a wide, bright gold margin; good substance; high vein count. Light lavender flowers in June and July. *L* \$17

Old Glory—(PP12503) Golden heart shaped leaves edged with an uneven dark green edged. Prominent veins and a rippled edged. Lavender flowers in mid-summer. *M-L* \$13

Olive Bailey Langdon—Round leaves are margined with gold. Similar to 'Frances Williams', but much less prone to summer burn. White flowers. *L* \$12

Olive Branch—A sport of 'Candy Hearts'. Heart shaped leaves are green with narrow, streaked, butterscotch yellow centers. Forms a neat symmetrical clump. Near-white, bell-shaped flowers. *S* \$14

On Fire—Gold streaks throughout the intense blue foliage. A streaked form of 'Halcyon.' Great breeder. Excellent substance. Lavender flowers mid-late summer. *M* \$38

On Stage—Yellow leaf centers with irregular green margins. Lavender flowers. *L* \$14

On the Border—Dark green, shiny leaves with a creamy yellow to white margin. Pale lavender flowers late summer. *M* \$12

One Man's Treasure—Green shiny leaves with a slight rippling margin, very shiny on top and slightly shiny on leaf underside, broadly ovate with a cordate base. Purple dots all along leaf petiole extend shortly up into the leaf veins. Medium lavender, tubular flowers that blooms August-September. *M* \$14

Ooh la la—Creamy white center streaks out into dark green margin. Pale purple flowers. *M* \$19

Orange Crush—Gold with a creamy white margin; moderately corrugated. Pale lavender flowers. *M* \$16

Orange Marmalade—(PP16742) Blue-green margin; center bright gold as it emerges from soil, becoming lighter during the season with bright light. Pale lavender flowers. Sport of 'Paul's Glory' *M* \$16

Oreo Cream—Leaves are heavily twisted and contorted with bright white centers and wide, dark green margins. Good substance. *S* \$26

Oshima Silk—Medium green leaves with a narrow, very rippled, white margin. White underside. Pale purple flowers in August. *M* \$23

Paradigm—Gold leaves with a blue-green margin. The variegation pattern intensifies later in the spring. Near white flowers. *L-G* \$12

Paradise Glory—A great sport from 'Paul's glory'. Very thick, yellow-gold leaves have wide, blue margins. Pale lavender flowers. *M-L* \$16

Paradise Island—(PPAF) Brilliant yellow leaves with narrow, dark green margins. Color changes to chartreuse as temperatures increase. Red petioles that bleed into the base of the leaf. Lavender flowers late summer. *S-M* \$16

Paradise Power—(PP12117) Pointed, light yellow leaves have dramatic dark green, irregular margin. Margins widen and then the leaves lengthen as they mature. Sport of 'Sun Power.' Lavender flowers. *M* \$13

Parhelion—A sport of 'Sub and Substance.' Huge, gold-chartreuse leaves with heavy substance are surrounded by a narrow cream margin. Lavender flowers. *G* \$14

Parky's Prize—Dark green leaves edged with a yellow margin. It has a good grow rate, good leaf substance, and pale lavender flowers. *M* \$8

Pathfinder—Dark green margin; white center with many green speckles. Pale purple flowers. *M* \$11

Patrician—Medium green leaves with gold borders; rapid growth rate. Lavender flowers. *S* \$6

Patriot—A sport of 'Francee'. Same dark green center, but with wider margins. Violet flowers. *M* \$6

Paul Revere—Wide, dark green margins with a creamy white center, a sport of 'Patriot'. Lavender flowers. *M* \$15

Paul's Glory—Gold heart-shaped leaves with a blue-green streaked margin. Lavender flowers. *M* \$13

Peace—Streaky white margins on green leaves. Lavender-Blue flowers. *M* \$9

Peanut—Dark green margin that sometimes streaks into the creamy yellow to white center; heavily corrugated; ovate blade shape. Purple flowers. *MN* \$13

Peppermint Ice—Wide, dark green margin bordering a creamy yellow to white center. Purple flowers. *S* \$15

***Permafrost**—Blue-green leaves with a striking wide, golden yellow margin. Leaves change to dark green with a creamy white margin by July. Very pale lavender flowers late July. *M* \$18

Peter Ruh—Blue-green center; margin chartreuse early, changing to gold, or in direct sunlight to more creamy yellow, have very good substance. It's the reversed sport of 'Paul's Glory'. Pale lavender flowers mid-July. *L* \$16

Pewterware—Soft blue, heart-shaped leaves. Lavender flowers late summer. *S* \$16

***Picasso**—Small elongated leaves with a deep blue-green center with a narrow chartreuse margin. Good substance. Near-white flowers late July. *S* \$17

Piecrust Promise—Light green leaves with rippled, medium to dark green margins. Good substance. Very pale lavender flowers mid-June to early July. *G* \$19

Piedmont Gold—An excellent gold leaved Hosta. Pale lavender flowers. *L* \$8

Pilgrim—Medium green center of leaf stays medium green all though the growing season. The leaf margin starts out yellow early then turns creamy white in early summer. Heart shaped leaves with average substance. Lavender flowers. *S* \$8

Pineapple Punch—(PPPP18318) Extremely rippled, long, narrow dark green leaves emerging with light green margins changing into showy gold to creamy white margins. Lavender flowers midsummer. *M* \$15

Pineapple Upsidedown Cake—Green early changing to green-margined with a bright gold center by mid-summer; rippled narrow blades: lavender flowers in August. *M* \$12

Pineapple Zest—Wavy, light gold, narrowly elliptic leaves. Pale purple flowers in early August. *MN-S* \$16

Pixie Power—Narrow, white centered leaves with green margins. . Purple flowers in August. *S* \$12

Pizzazz—Heart-shaped frosted blue-green leaves with irregular cream-white margins. Pale lavender flowers. *L* \$9

plantaginea—Shiny, light green color foliage with smooth texture. Fragrant 6" long white flowers. Long known as the "August Lily." *L* \$8

plantaginea 'Aphrodite'-- Shiny, light green color foliage with smooth texture. Double, fragrant, white flowers as much as 6" long. *L* \$11

Pocketful of Sunshine—(PP23709) Yellow, cupped leaves with a broad, deep green margin. Grows into a compact clump. Fast growth rate. Light lavender flowers early to midsummer. *S* \$17

Popcorn—Rounded, yellow leaves with a blue margin. Yellow fades to cream midsummer. Leaves become more cupped with maturity. Pale lavender flowers. *S* \$16

Popo—Bluish-green to medium green, ovate-shaped and slightly wavy leaves. Vigorous grower. Lavender flowers late June to July. *MN* \$10

Prairie Moon—Bright yellow, wedge-shaped leaves backed by a lovely silver reverse keep their color all season long. Slug resistant. Lavender bell-shaped flowers in August. *M* \$14

Prairie Sky—Powdery blue leaves that keep their color all season long. Slightly cupped. Good substance. Grows into a tight clump. Pale lavender flowers mid to late summer. *M* \$15

Prairie Sunset—Bright fold leaves with a striking dark green margin. Corrugated at maturity. Near white flowers in July. *M-L* \$20

Praying Hands—Upright, narrow leaves of 'Praying Hands' gives it an unusual look like no other Hosta. Each green leaf is rolled and folded into a tube shape, displaying the prominent veins on the back of the leaf. A thin white margin borders the outside margin of the leaf. *M* \$14

Prince of Darkness—Cupped, rounded, dark green leaves with an irregular, narrow, white center. Good substance. Pale lavender flowers in August. *M* \$23

Punky—Gold centered, blue-green margin, very heavy substance, slightly rippled. Pale lavender flowers. *S* \$19

Queen Josephine—dark green glossy leaves are bordered by a wide yellow margin, which turns lighter as the season progresses. Lavender flowers midsummer. *M* \$10

Queen of the Seas—Blue, pointed heart-shaped leaves are heavily rippled with a pie crust margin. Pale lavender flowers early season. *L* \$14

Quilting Bee—Some puckering, shiny, dark green leaves. Pale purple, semi-bell shaped flowers in July. *S-M* \$10

Radiant Edger—A wide gold margin surrounds a medium to dark green center, average substance. Lavender flowers. *S-M* \$8

Radio Waves—Medium green with a center band of chartreuse in spring; very wavy; good substance; fast growth rate. Pale lavender flowers in August. *S* \$14

Rain Dancer—Wide chartreuse-yellow margins on large blue-green leaves. Margined sport of ‘Blue Umbrellas’. Pale lavender flowers early summer. *L* \$15

Rainbow’s End—(PP17251) Very dark green, shiny leaves with a yellow center that streaks into white. Purple flowers in August. *S* \$16

Rainforest Sunrise—Sport of ‘Maui Buttercups.’ Leaves are solid light green when they emerge, then quickly develop dark green margins and radiant gold centers. Leaves are thick and glossy, making them slug resistant. Light lavender flowers. *M* \$14

Rare Breed—Leaves have a crisp white center with army green jetting and green margins. This plant is a showy selection for any garden with its gorgeous tricolored leaves. Semi-upright growth habit. Pale lavender flowers mid to late summer. *L* \$18

Red Alert—Green leaves with a narrow, creamy yellow margin; crimson red petioles extending into the leaves. Deep lavender flowers mid-summer. *M* \$15

Regal Chameleon—Blue-green leaves have a white center in the spring that turns all green by summer. Grows into a vase-shaped clump. Lavender flowers on tall scapes. *L* \$23

Regal Promenade—Large, blue-green leaves that have cream streaks. Pale lavender flowers in July. *L* \$24

Regal Rhubarb—Deep green leaves with bright red petioles; heavily rippled margin; moderate corrugation; good substance. Pale lavender flowers. *L* \$10

Regal Splendor—A sport of ‘Krossa Regal’ with creamy-white leaf margins on frosty blue leaves. Pale lavender flowers. *L* \$9

Regal Supreme—(PP19818) Frosty, blue-green leaves with a beautiful very wide, contrasting, creamy-white margin. Grows in upright vase-shaped mound. Lavender flowers midsummer. *M-L* \$17

Revolution—Creamy white center is green speckled with a very dark green margin. Lavender flowers. *M* \$13

Rhino Hide—(PPAF) Wide blue margins with a narrow light green to yellow center. Leaves are cupped, puckered., and so thick, slugs can’t touch them! White flowers early to midsummer. *M-L* \$20

Ripple Effect—Long, narrow, wavy gold leaves with a narrow blue-green margin occasionally jetting towards the center. Foliage changes to chartreuse with a green margin in summer. Unique sport of ‘June.’ Pale lavender flowers mid to late summer. *S* \$15

Rippled Treasure—Elliptic-shaped leaves emerge bluish, changing to medium green by early summer with a heavily rippled margin. Slightly wavy. Slightly corrugated. Pale lavender flowers late June to mid-July. *M* \$17

Rising Sun—Ovate-shaped, bright gold leaves. Slightly wavy and slightly corrugated. Semi-upright growth habit. Pale purple flowers mid-July to August. *L* \$14

Risky Business—The white centered form of ‘Striptease,’ with the same growth rate. Mature plants have an interesting twist on the leaf tip. Lavender flowers in August. *M* \$15

Robin Hood—Medium green center with a dark green margin; thick substance; heavily corrugated. Near-white flowers. *L* \$17

Roller Coaster Ride—6” long skinny leaves; green-centered with a 1/8” wide, creamy yellow to white margin. Fast growth rate. Purple flowers on 40” scapes in late August. *S* \$14

Rosedale Golden Goose—Bright gold leaves with good substance. Sun tolerant. Lavender flowers in July. *L* \$15

Rosedale Lost Dutchman—Bright Gold; heavily corrugated; thick substance. Near-white flowers. *M* \$16

Rosedale Tractor Seat—Large, nearly round, cupped green leaves. Heavily corrugated. Thick underside bloom. Thick substance. Near white flowers late June. *L* \$16

Roy Klehm—(PP19647) Yellow leaves with wide dark green margins. Upright vase-shaped habit. Lavender flowers midsummer. *L* \$18

Royal Standard—Rich green foliage with huge fragrant white flowers. *L* \$6

Royal Tapestry—Blue-green center with margin that changes from yellow to creamy white; slightly wavy; moderately corrugated; good substance. Pale Lavender flowers. *L* \$14

Royal Tiara—Pale green margin, narrow white center, twisted shape. The most unusual of all the “Tiaras” known for its very odd, gnarled, white centered foliage, July lavender flowers. *S* \$13

Sagae {aka fluctuans variegated}—Frosty green leaves with creamy yellow margins. Near white flowers. *L* \$12

Saishu Jima(aka Haku Jima)—Dark green leaves are narrowly elliptic, very wavy, shiny leaves. Reddish purple dots on petioles. Grows into a small, dense mound. Medium purple flowers. *S* \$7
